Local Classes and Readings, Worldwide taped Readings by phone

7/1/01-- Summer is here, and hopefully, the livin' is easy.

Brief Compatibility Profiles are now available via phone or e-mail. Learn the potential for romance, overall compatibility, sexual compatibility, and mutual career success- without spending months or years of your life-- and possibly getting hurt! All you need is your birthdate (month/day/year) and the birthdate of your new acquaintance----- at an introductory price of only \$20.

Our U.S. **Independence Day July 4** is very close to the **Lunar Eclipse July 5 at 7:56 am and Full Moon at 8:04 am PDT**. If we resist the temptation to dig up old hurts and angers from the past, the late evening of the 4th, and early a.m. of the 5th could be a time for intense sexuality. Eclipses frequently signify endings and new beginnings-- with the signs Cancer and Capricorn involved, this could mean changes in home or career. ** Always convert times listed to your time zone for accuracy!**

Upcoming noteworthy **Magi Days**: **7/11/01**- A beautiful day for elevated sensuality with your beloved. **7/17-7/19/01**- A surefire time for a breakup whose time has come. **7/25/01**- Avoid confrontations with your special someone- they could snowball.

Mars goes direct 7/19 in the geocentric dimension, and coupled with the **New Moon 7/20 at 12:44 pm. PDT**, we could have lots of energy for new beginnings. However, with Mars still conjunct Pluto but opposite a wide conjunction of Venus and Saturn at the lunation, our energies could come in fits and starts, or be restricted in some way. This configuration could also mean an intense romantic involvement that can't quite seem to get off the ground. Remember-- those last few days before the New Moon are excellent for finalizing business deals which have lingered on in limbo, cleaning up your desk, closets or garage, or doing any activity which finishes up old business.

Again, **Moon Void** is not a good time to attempt anything important -- **Moon Void times for the next month lasting an hour or more during the business day (more or less) are** Thurs. 7/5 8:04 am PDT- Fri. 7/6 at 4:33 pm, 7/13 4:52 pm- 7/14 4:13 am PDT, 7/15 12:41 am- 7/16 11:26 am PDT, 7/18 4:46 am- 2:56 pm PDT, 7/20 12:44 pm- 3:43 pm PDT, 7/24 3:48 am- 4:08 pm PDT, 7/26 8:10 am- 7:17 pm PDT, and a **long double whammy on 7/31 from 9:24 am-11:16 am PDT and 7/31 7:21 pm- 8/3 1:53 am PDT**. Plan to get most things done Mon. & Fri. that week! Don't forget that the Moon is also void other days and times and/or for shorter periods...

Please e-mail me with any questions you would like to see addressed in future issues-- if you or anyone you know would like to receive StarGazer, send me the e-address-- and, as always, I appreciate your **referrals** ----

Starlight Blessings and Love,
