**10/26/01--** Our **Werewolves-Howling Full "Blue" Moon is Halloween 10/31 at 9:41 pm PST**. (A blue moon is the second full moon in a calendar month.) This blue moon will be shining down on Monsters, Goblins and Ghosts with lots of planetary patterns for an interesting Halloween. Mercury and Venus exactly conjunct in Libra and trine Uranus will give he- and she-devils particularly silvery tongues and a desire for adventure, Pluto within orb of the Venus-Mars midpoint combined with the Scorpio Sun and Taurus Moon will give every vampire lots of desire for amour, but the geocentric applying Saturn contraparallel to Mars may put a brake on things, or yield less than optimal results. This is certainly for the best--- Heads up to every Little Red Riding Hood, male or female: Neptune in T-square to the Sun and Moon in geo, and in T-square with Mercury and Earth/Moon Complex in the heliocentric sky, may well obscure the truth about the Werewolf or Werewolfette you're flirting with. Besides, **Saturn and Pluto** are grinding us hard again in their closely applying Monster Mash-- this is no time to begin a Love Chart with someone new.

**Saturn and Pluto**..... We are going to have to continue dealing with them, as they are continuing to deal with us. As archetypes, Saturn represents all that we hold onto, whether appropriate or long outmoded, and Pluto symbolizes inevitable force for change- metaphorical death and rebirth. When the immovable object meets the unstoppable force.... well, you get the picture. Pluto almost always wins this struggle, as the force of growth and life will not be denied-- however, Saturn puts up incredible resistance before it finally capitulates.

It would be easy at this time to personalize the **Saturn and Pluto** polarity dance within our interpersonal relationships with one person taking on the Saturnian resistant-to-change role, and the other the transformative Plutonian one. We all possess both the desire to hold onto the known, and the desire for change--- these forces impacting us now are planetary and archetypal- let's not do this painful do-si-do with others. Make the changes you need to make, and allow others to make their changes-- the more we surrender to the inevitable- even welcome it with joy- the easier it becomes.

Remember that life can nudge us onto our most perfect path with a tap on the shoulder, a 2x4 to the head, or by running us over with a freight train-- it's our choice- how carefully do we want to listen to our inner guidance? The **Saturn-Pluto opposition** has also made it a tough time for career and finance- be patient, let go of what needs to be released, clean out your closets literally and figuratively, and allow this time to realign you- to make you lean, clean, and ready for fresh new beginnings.

**Jupiter goes retrograde 11/2- 3/1/2002**. This retrograde shouldn't be difficult- for one thing, it will give us the wonderful for business and finance applying quincunx with Pluto again through 11/26, and then again in May 2002. This is a good time to sign papers, incorporate, start a job, etc., *if-- and I stress if--* you have no negative transits going on and you avoid bad aspects on the day you choose.

Lots of noteworthy **Magi Days** this month: (These are days whose planetary patterns suggest strong general tendencies for one and all.) **11/12/01-** a bad day for romance, **11/13-** the stars change and relationships are fun again all day, **Thanksgiving Day 11/22-** keep cool and quiet through this trying day, **11/28-** a day for sensual love.

**New Moon is 11/14 at 10:40 pm PST**. Sun and Moon tightly square Uranus from Scorpio to Aquarius suggests continuing restlessness, a yod with Jupiter, Mars and Pluto can bring us a fairly amorous month, but anger could also get larger than life. More romance comes from a Venus-Pluto parallel and a Mars-Neptune-Chiron triple parallel. Watch communications, though- Mercury square Mars and quincunx Saturn makes us all reactive and likely to say things we would regret.

Looking at **Thanksgiving Day 11/22** a little more closely-- Sun square Moon, Venus square Mars, Mercury square Uranus, Sun parallel Saturn... Moon Void all morning during prep time until 1:52 pm PST, I could go on and on, and that's just in the geocentric sky. This is an unlovely day for the beautiful celebration of Thanksgiving- it's an easy day for misunderstandings and disputes..... *you thought you were supposed to bring the pies, not the appetizers, to your sister's.... all of a sudden you're hearing about how this is one more time you've let her down, just like when you were children.....* This is not the day to go there- we're all testy and difficult and satisfying resolutions are unlikely to be found today. Get your tasks and timing clear, be pleasant, don't drink too much, pitch in to help the frazzled cook, and the day can go fairly smoothly.

**Holiday Gift Certificates** for taped one-hour readings (local or by phone) including all charts are available at great savings-- just \$55 each!

Remember, **Moon Void** is not a good time to attempt anything important -- **Moon Void times for the next month lasting an hour or more during the business day (more or less) are .....** 10/30 11:17 am- 10/31 4:48 am PST, 11/1 8:20 pm- 11/2 1:12 pm PST, 11/8 12:30 pm- 11/9 3:49 am PST, 11/12 4:42 pm- 11/13 7:44 am PST, 11/14 10:40 pm- 11/15 10:51 am PST, 11/21 11:37 pm- 11/22 1:52 pm PST, 11/26 8:43 pm- 11/27 1:06 pm PST, and 11/29 3:21 pm- 9:04 pm PST. Don't forget that the Moon is also void other days and times and/or for shorter periods...
