12/29/01-- Happy New Year everyone!!!! Our **Full Moon is 12/30 at 2:40 am PST.** With Jupiter conjunct the Moon and Venus conjunct the Sun, we should have a romantic and snuggly Full Moon, assisted by the Sun-Mercury-Venus-Jupiter quadruple parallel and the Neptune-Chiron parallel in the geo, and the Venus-Chiron conjunction and the Mars-Uranus parallel in helio. But **please do not start a Love Chart** (this means to make love with someone for the first time) **during this Full Moon**, due to a Mars-Pluto square in the geo, which would probably lead to "performance challenges," and a Sun-Saturn quincunx which would certainly push the self-destruct button on the relationship-- **unless.... you wait until after 5 pm. PST on the 30th, when both of these negative aspects have separated.**

Noteworthy **Magi Days** this month: (These are days whose planetary patterns suggest strong general tendencies for one and all.) **12/29-** could well be a flaccid day for one and all- we're too pooped to pop.

The **Saturn- Pluto opposition** continues in helio for several months now- continuing to invite us, *or force us*, (depending upon how receptive we are to the cosmic writing on the wall) to purify ourselves inwardly and clean up our dysfunctional or unwieldy outer world surroundings and associations. Look at what needs to be released, and bless and release!!! It's so freeing, and it creates energetic space for more appropriate new beginnings. **Always remember that nothing is ever taken from us that we need for our soul growth.** *I have written extensively about the Saturn-Pluto opposition in the last 4 or 5 newsletters- its difficulties and the beautiful opportunities it offers us to make everything in our lives a more authentic reflection of our truest selves and a better platform for our evolutionary process---* *If you would like to receive this information again, please don't hesitate to ask-----*

Again, **New Year's Eve 12/31** is another great holiday-- with a quadruple parallel/contraparallel of Sun, Mercury, Venus & Jupiter-- aren't we all wonderful? The Venus-Saturn quincunx and the Saturn-Neptune trine may hold us back a bit, but I doubt it, with more joy and play as the order of the day in the helio-- Earth/Moon complex in a lovely eclipse with Jupiter, Venus conjunct Chiron and a triple parallel of Venus-Mars-Uranus. The only downside is that new love charts commenced on this day could end up as relationships which fluctuate more than we might wish. The good times should continue to roll on **New Year's Day 1/1/2002**, more or less- but communication, especially about feelings, could be hindered somewhat with a Mercury-Saturn square in helio, coupled with the still-applying Venus-Saturn quincunx in geo.

New Moon is 1/13/2002 at 5:29 am PST. Romance is in the air for this lunar month, with a nearly exact conjunction of Venus to the Sun & Moon & with all 3 planets sextile Mars, a Moon, Venus, Jupiter triple parallel, and retrograde Jupiter in an applying quincunx with Neptune. And although January can be a dead month for business, the New Moon in Capricorn will at least have us thinking of career-building.

Mercury goes retrograde again 1/18/2002- 2/8/2002. Once again, expect and prepare for the usual computer glitches, miscommunications, typos, numerical errors, and travel problems. All we can really do is to triple-check, allow a little more time for delays, and make sure to clearly confirm all appointments. Be patient and don't over-dramatize the retrogrades.... remember, retrogrades are only a phenomenon of geocentric calculations.... there's no such thing in the equally important heliocentric sky.

Remember, **Moon Void** is not a good time to attempt anything important-- **Moon Void times for the next 30 days lasting an hour or more during the business day (more or less) are** 12/31/01 5:43 am- 2:09 pm PST, 1/2/2002 3:16 am- 3:34 pm PST, 1/3 11:30 pm- 1/4 5:23 pm PST, 1/8 1:03 pm- 1/9 1:57 am PST, 1/10 10:49 pm- 1/11 9:18 am PST, 1/15 4:25 pm - 1/16 6:00 am PST, 1/23 4:29 am- 4:28 pm PST, and 1/25 11:23 am- 10:17 pm PST. *Don't forget to adjust for your time zone, and that the Moon is also void other days and times and/or for shorter periods...*

Please e-mail me with any questions you would like to see addressed in future issues-- if you or anyone you know might like to receive StarGazer, send me their e-address-- and as always, I appreciate your referrals ----

May the New Year be peaceful and blessed-- again I send you my vision for all of us, and invite you to hold it with me- a vision for all Beings of all Universes--- of Peace and Compassion, Love and Light. May it be so- with every thought we think, every word we speak, and every action we take- may we all choose to co-create Paradise.

Starlight Blessings and much Love,
HelenA
