11/29/01-- Happy Holidays everyone!!!! Our **Full Moon is 11/30 at 12:49 pm PST**. Sun conjunct Mercury in Sagittarius, opposite Moon conjunct Saturn in Gemini doesn't suggest a very warm & fuzzy Full Moon- feelings can easily get stuffed. In addition, the Mars-Uranus conjunction in Aquarius can create a nervousness that is unlikely to get grounded due to a lack of planets in earth signs. Getting out of our heads will be difficult-- make sure not to turn this nervous mental energy into irritability with others. Staying mentally productive- without trying to do anything too detailed- is probably the best use of this energy.

The **Saturn- Pluto opposition** in the geocentric dimension is separating now until mid-May 2002, but we aren't yet finished with our kicking and screaming journey toward self-actualization and soul refinement-- the same opposition kicks in in the heliocentric plane on 12/23 through the end of April '02. Don't expect the changes to cease until the end of May '02, with some shakeouts continuing a bit longer. We may especially see changes within and around us, and perhaps some real power struggles, through the first week of December as the Sun moves into conjunction with Pluto in Sagittarius. People with birthdays in this 1st week of December are likely to have an intense and transformative year beginning on their birthdays, due to this Pluto-Sun conjunction in their solar return charts. Remember that when the forces for change are strong, going with the flow and being proactive rather than reactive allows us the most "control" over the types of changes we will experience and when. (This means-- get busy and look at what needs to change within you and in your life and do it!!!!--- this is so much easier than having life make the changes for you!) ***Always remember that nothing is ever taken from us that we need for our soul growth.*** *I have written extensively about the Saturn-Pluto opposition in the last 4 or 5 newsletters- its difficulties and the beautiful opportunities it offers us to make everything in our lives a more authentic reflection of our truest selves and a better platform for our evolutionary process---* *If you would like to receive this information again, please don't hesitate to ask----*

The **days from 11/30- 12/2** are definitely not good days to start anything new, with the Sun opposite Saturn in geo (Saturn conjunct Earth/Moon complex in helio). This goes from starting a new job, signing documents, or opening a new account of any kind, to meeting someone new or making love with someone for the first time. Wait these few days out.

Noteworthy **Magi Days** this month: (These are days whose planetary patterns suggest strong general tendencies for one and all.) **12/18/01**- Great for earning money by day and for passion by night, **12/26**- the most romantic day of the holiday season, **12/29**- could well be a flaccid day for one and all- we're too pooped to pop.

The **first night of Hanukkah 12/9** looks fairly blessed- with a generally benevolent tone, and lots of stimulating discussion (but don't get too fixated on your own point of view). Feelings and creativity may be a little difficult to access, however, due to the Venus-Saturn opposition in geo.

New Moon is 12/14 at 12:47 pm. Freedom-loving energy runs high this month, with Sun, Moon, Mercury, Venus & Pluto all in Sagittarius at the lunation, and this is certainly not hindered by a sextile to the Sun-Moon from Uranus in Aquarius. Venus and Pluto in tight embrace at the lunation should bring lots of passion (even obsessive passion) this holiday month- *pour faire bien l'amour*- but no one wants to be tied down this month so don't even try. It doesn't look to be the best month for focus, either-- but at least it's December, which is never all that productive anyway.

Christmas Eve 12/24 should be another blessed holiday-- full of bonhomie, positively energetic, very cuddly and romantic- with a Sun-Venus-Jupiter triple parallel, the continuing Neptune-Chiron parallel, and a Venus-Chiron conjunction all in the geo, plus a Venus-Mars trine & a Venus-Jupiter-Neptune-Earth/Moon Complex quadruple parallel in the heliocentric dimension. Just make sure to note the Moon Void time listed below----- **Christmas Day 12/25** should continue in the same vein- with a Sun-Venus-Chiron conjunction, and a Mercury-Venus parallel in geo-- perhaps a little less amorous, but still charm and grace abound.

New Year's Eve 12/31 Another great holiday-- with a quadruple parallel/contraparallel of Sun, Mercury, Venus & Jupiter-- aren't we all wonderful? The Venus-Saturn quincunx and the Saturn-Neptune trine may hold us back a bit, but I doubt it, with more joy and play as the order of the day in the helio-- Earth/Moon complex in a lovely eclipse with Jupiter, Venus conjunct Chiron and a triple parallel of Venus-Mars-Uranus. The only downside is that new love charts commenced on this day could end up as relationships which fluctuate more than we might wish. The good times should continue to roll on **New Year's Day 1/1/2002**, more or less-- but communication, especially about feelings, could be hindered somewhat with a Mercury-Saturn square in helio, coupled with the still-applying Venus-Saturn quincunx in geo.

Holiday Gift Certificates for taped one-hour readings (local or by phone) including all charts are available at great savings-- just \$55 each! *(This price is for gift certificates only please, may not be combined with other offers.)*

Remember, **Moon Void** is not a good time to attempt anything important, *and we get lots of Moon Void this month to exacerbate the distractions* -- **Moon Void times for the next month lasting an hour or more during the business day (more or less) are** 11/29 3:21 pm- 9:04 pm PST, 12/3 3:04 am- 12/4 6:15 am PST, 12/6 6:20 am- 9:11 am PST, 12/7 2:57 pm- 12/8 11:57 am PST, 12/10 12:43 am- 3:09 pm PST, 12/12 4:48 am- 7:30 pm, 12/16 1:35 am- 12/17 10:43 am PST, 12/24 7:21 pm- 10:12 pm PST, 12/26 4:22 pm- 12/27 6:39 am PST, and 12/31 5:43 am- 2:09 pm PST. Don't forget to adjust for your time zone, and that the Moon is also void other days and times and/or for shorter periods...
