3/27/02-- Full Moon is Thursday, 3/28 at 10:25 am PST. Energies will be running high this Full Moon, although it probably will not as emotional as our last one. There are lots of major aspects- Jupiter and Chiron in a Grand Cross with Sun and Moon, and Sun-Moon in a Grand Trine/Minor Grand Trine with Saturn and Neptune, all in geo. The real bugaboo comes during the Full Moon but in helio, with Mars conjunct Saturn and both opposing Pluto applying and peaking over the weekend. **Tempers may run very, very hot.** Keep as calm and centered as you can, absolutely avoid antagonizing anyone at all- this could literally be dangerous- and if you feel yourself starting to boil over or feel resentful, do your anger management/emotional release work alone- whatever it is probably not the fault of whomever you'd like to blame.

The **Saturn- Pluto opposition in helio really ratchets down its vise grip on us through 3/30**, when it peaks and begins to separate---- then all we have to look forward to is one more time in the Saturn-Pluto mosh pit in geo for most of May '02, then at last we're over and out with this infamous opposition. For most of us, we need to continue paring down and letting go, reorganizing, and clearing the decks for new beginnings-- we may also find ourselves repairing or replacing worn-out machinery or structures, as Saturn represents structures and systems, and Pluto represents breakdown and rebirth. When this opposition ends, the forces pushing for our transformation strongly slacken, so now's the time to get things done. Things should feel a lot easier as the opposition wanes, and we may even see some upturn in the economy, especially after May, as Saturn's limiting pressure is taken off Pluto, which also rules big business. **A special note to those with birthdays from approx. the 7th- the 11th of the month, especially in the signs of Gemini, Virgo, Sagittarius, and Pisces--** you are being squeezed hardest of all by this opposition. Your judgment is at an all time low- you could even be swinging wildly between feeling like the world's biggest loser and feeling invincible and too good for anyone else. Neither of these is true, but you don't know it now. Unlike the rest of us, folks with these birthdays, or **anyone with planets in the mid-degrees of mutable signs**, shouldn't make any major changes in your life until at least April. Especially, don't leave a job or relationship that has been good, don't elope or start a new job, and be careful of being more attracted to people that are bad for you. Even after the opposition is over, Saturn and/or Pluto may still be transiting your Sun or other planets, so if you're still feeling crummy, wait even longer to make big decisions. **Always remember that nothing is ever taken from us that we need for our soul growth.** *I have written extensively about the Saturn-Pluto opposition in the last 8 newsletters- its difficulties and the beautiful opportunities it offers us to make everything in our lives a more authentic reflection of our truest selves and a better platform for our evolutionary process--- If you would like to receive this information please don't hesitate to ask----*

Easter Sunday 3/31 brings Mercury into T-square with the aforementioned Saturn/Mars- Pluto opposition. Words would most likely be the weapons of attack used today in any disagreements. Remember, it's impossible to take something back once it's been said- and the wounds from words can last a long time. This is an unlovely planetary day, do your best to keep a low profile.

Noteworthy **Magi Days** this month: (These are days whose planetary patterns suggest strong general tendencies for one and all.) **4/7-** A great day to seek commitment from your special someone, **4/9-** Love is difficult for the first half of today, hide out until afterward. *For more information about Magi Astrology check out their website- www.magiastrology.com.*

New Moon is 4/12 at 11:21 am PST. We should get a pretty good jump start into spring with the Sun, Moon, and Mercury all teamed up in Aries in geo. A lot of added zing comes from an Earth/Moon Complex- Mars- Uranus Grand Trine in the helio. Saturn by now is separating from the Pluto opposition in helio, but for today Venus moves in to applying conjunction with Saturn and opposition with Pluto. This could be a limitation on passion and/or business. If it's a slow month, don't burn yourself out, save some energy for times with better flow.

Remember, **Moon Void** is not a good time to attempt anything important-- **Moon Void times for the next 30 days lasting an hour or more during the business day (more or less) are** **4/5 1:59 am- 1:07 pm PST, 4/10 10:31 am- 2:40 PDT, 4/15 9:53 am- 1:56 pm PDT-- File those returns early or late in the day, not during the Moon Void!, 4/22 5:30 am- 8:35 am PDT, 4/24 7:06- 9:22 am PDT, and 4/26 6:29 - 9:15 am PDT.**

Don't forget to adjust for your time zone, and that the Moon is also void other days and times and/or for shorter periods...

Please e-mail me with any questions you would like to see addressed in future issues-- if you or anyone you know might like to receive StarGazer, send me the e-address-- and as always, I appreciate your referrals ----

I continue send out my vision for all of us, and invite you to hold it with me- a vision for all Beings of all Universes--- of Peace and Compassion, Love and Light. May it be so- with every thought we think, every word we speak, and every action we take- may we all choose to co-create Paradise.

Starlight Blessings and much Love,
